CELSI
...the future of fire

WELCOME TO CELSI

At Celsi we know how important it is to create a stylish and relaxing living environment. That's why we've developed this collection of premium electric fires.

This brochure has been designed to make the purchase of your new Celsi fire as simple as possible. I hope you find it both informative and inspiring.

SHOWROOM EXCLUSIVE

Celsi products provide all the warmth, comfort, and style to be expected from high-performance electric fires. Our showroom network of independent retailers is exclusively selected to display our products. These highly experienced retailers can demonstrate all the features and benefits of owning a Celsi fire.

A retailer can provide guidence for your individual requirements, and assist you with choosing and installing the most appropriate model for your home.
We want you to experience the very best product performance, customer care, and service satisfaction that we believe you will find from our Celsi retailers.

PEACE OF MIND ASSURANCE

We believe our success stems from a combination of innovative design, investment in technology and the highest quality manufacturing standards.

All DLX products carry a 5 year warranty, subject to terms and conditions.

Ultiflame Ultra, Electriflame VR, and Electristove XD products carry a 3 year warranty, subject to terms and conditions.

Fire Surrounds and Fascias are subject to 12 months warranty.

EFFORTLESS WARMTH, CAPTIVATING STYLE.

Experience the next generation of electric fires with Electriflame DLX. Through design innovation and precision engineering Celsi have captured every natural element and characteristic that embodies fire. This has been stunningly reproduced and encased behind safe-to-touch sleek glass walls.

DLX MIDNIGHT EDITION

IMMERSIVE FLAME EXPERIENCE

Introducing The Midnight Edition, a visual triumph and an exclusive standard feature on every DLX 3-Sided Media Wall Fire, marking the ultimate evolution in electric fireplace realism. Engineered using specialised rear screen dark glass, this premium feature maximises contrast, intensifying the dynamic flame visuals and making our signature fuel bed more vibrant than ever before. The result is a truly immersive viewing experience that anchors your media wall with unmatched sophistication and depth.

AR MIDNIGHT EDITION + AR

ANTI-REFLECTIVE GLASS

For those who demand absolute perfection, elevate the Midnight Edition by pairing it with our innovative Anti-Reflective Glass. This optional premium upgrade utilises an invisible, high-performance coating to the front and side glass panels, engineered to maximise light transmission and subtly minimise visual distraction. This masterful clarity delivers an unprecedented, distortion-free panorama of the textured logs and glowing embers. It fundamentally enriches the flame effect, producing a striking visual sharpness and mesmerising depth of colour that makes the DLX fire truly breathtaking in its vibrancy.

CELSI SMART

COLOUR

Cutting-edge, multi-point LED lighting creates a remarkably lifelike illusion of glowing embers and natural burning logs.

Vibrant Soul? Switch to ‘Animation Mode’ for an automated, hypnotic journey through every hue, a truly spellbinding encounter.

Personalise your ambience with 16 pre-set tones, or take full command to customise the glow of your flames, logs, and ember bed.

CONNECTIVITY

Get connected with our feature-rich and simple to operate CELSI Smart App.
Available to download on the App Store, or get in on Google Play!

CONTROL

Control your fire from your smart phone or tablet with full handset functionality.

Further applied smart technology allows you to voice activate your fire using Amazon Alexa and Google Assistant.

Scan the QR code to download our App.

Celsi Smart app control

ADVANCED FUNCTIONALITY

Experience the warmth and ambiance of a DLX fire all year round, effortlessly operated to suit even the busiest lifestyles. When it's time for comfort and relaxation our premium heating system quietly emits warm air, letting you enjoy beautiful flames in peace with minimal operational noise.

One of many advanced features in our DLX fires is ISOFLAME, which allows independent flame operation when no heat is required. Celsi integrates the finest industry-designed features, ensuring optimal energy-saving performance and assurance. Please take a moment to explore our Advanced Features section.

Minimal operational noise. Quiet warmth, complete control.

OPTIMAL ENERGY SAVING PERFORMANCE AND ASSURANCE

Our fires are built with high quality low energy consumption LEDs that provide incredible flame brightness and colour saturation, whilst maintaining sensible and economical energy use.

THERMOSTATIC HEATING
Pre-set your heat comfort level for automatic temperature control via the handset.

TIMER FUNCTION
Programmable 7-day heating timer with hourly on/off control.

LED EFFICIENCY
Advanced lighting is used throughout our product. Our onboard LED's ensure effective energy saving low power consumption.

ISOFLAME
Independent flame effect capable of displaying in isolation when no heat is required from the appliance.

COLOUR SMART
16 colour vibrant presets with 100+ options to customise the light ambience on flames, logs, and ember bed.

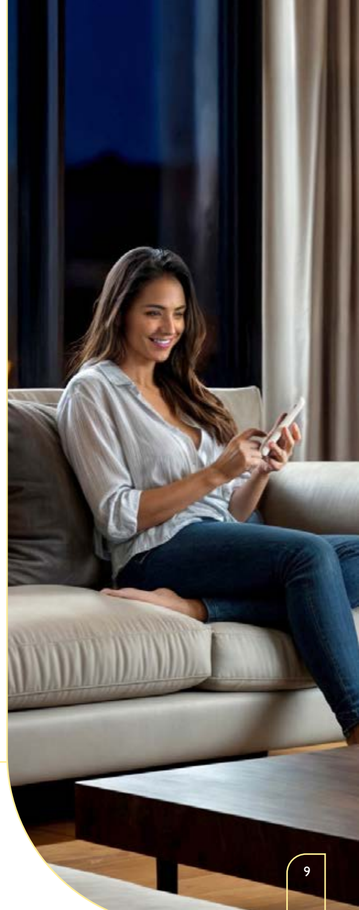

FLAME SPEED
Controlable flame speed. Customize the intensity and movement of the flames to perfectly match your desired mood and setting.

Celsi Smart handset.

Compliance with Electrical Energy Rated Product (ERP)

Conformity assessed and certified UK & EU

3-SIDED GLASS

Our large format fires have the power to transform any room, regardless of size. Whether you're adding one of our on-trend media wall units or renovating an existing space, we offer five product sizes, with our largest model measuring an impressive 2 meters.

CONFIGURATION

Achieve desirable results with flexible installation options. Fires are supplied with side blanking panels, allowing you to customize your view:

3-sided glass: 180-degree view

2-sided glass: Left or right corner view

1-sided glass: Rront view wall inset

For expert advice and to explore tailored installation options, visit a Celsi showroom. Our knowledgeable retailers can provide guidance and demonstrate the full product range, helping you make the perfect choice.

3-sided glass, 180-degree view

2-sided glass, left or right corner view

1-sided glass, front view wall inset

MEDIA WALL LIGHTING

Enhance your media wall with ambient LED mood lighting. Installed around the wall, it perfectly complements your fireplace, adding a stylish touch and making your entertainment area truly captivating.

For expert advice on integrating this ambient lighting with your design, visit your nearest Celsi retailer for tailored guidance.

FIRE TO TV SIZE

Finding the right balance between fire and TV size is key when designing a Media wall. As televisions have grown larger, so have our fireplaces. Large TVs are often mounted or inset above the fireplace, raising the question: what sizes work best together?

To help, we offer a 'recommended size guide' based on a 16:9 aspect ratio, that takes the diagonal TV measurement into account. This guide ensures the fireplace is slightly wider than the TV, creating a balanced and visually pleasing result for your space. It's always best to measure the space of the overall room size and consider your personal preferences before making a final decision.

Fire size	TV Diagonal	TV Width
Millimetres	Inches	Millimetres
DLX 1000	(48)	1073
DLX 1250	(55)	1228
DLX 1600	(65)	1449
DLX 1800	(75)	1676
DLX 2000	(85)	1893

NATURAL
OAK LOGS

DLX fires combine sensational flame effects with genuine oak logs, each split to reveal the unique character of the oak. Chosen for its deep rich color and distinctive textured bark, hardwood oak provides a beautiful natural finish for these premium electric fires.

ARTISAN OAK

Our fuelbeds are meticulously handcrafted by skilled artisans who split and sculpt high-quality oak. They then selectively flame-char the logs and chippings to develop an authentic wood-burning character.

These customisable log-sets are carefully wrapped, individually referenced, and include an easy-to-follow layout plan before leaving our UK factory, ensuring a simple and efficient installation solution.

Our genuine oak logs deliver an authentic fire experience: stunning when powered on, and naturally pleasing when off.

REAL WOOD

ELECTRIFLAME® DLX

100% – Natural Authentic Oak

Natural oak is available for all 3-sided DLX models, and come complete with a simple to follow layout guide, fully supported with instructional demonstration videos.

Retaining character

Attention to detail

Log charring aesthetics

Patented technologies bring new dimensions to the electric fire market as fuel bed and flames merge together in a living fire effect that blurs the line between reality and illusion. Cutting-edge technology replicates the natural flicker, color, and movement of real flames. This creates an authentic fire experience, the effects are astonishing, and are at the forefront of our premium electric fires.

WOODLAND EFFECT LOGS

Blurring the lines between reality and illusion with naturally detailed woodland effect logs.
Woodland ceramic logs come complete with a simple to follow layout guide, fully supported with instructional demonstration videos on large format fires.

Natural bark chippings with all large format fires.

DISCLAIMER

Our policy is one of constant development and improvement. We therefore reserve the right to revise designs and specifications of our products without formal notice, patents pending. We always recommend our products to be viewed in an approved showroom before purchase. Whilst we have taken every care in the preparation of this brochure it is not intended to replace the installation manual which provides more detailed information.

Photography is for illustration purposes only and although every effort has been made to ensure accurate reproduction of typical installations and flame pictures they may vary according to fire model and installation methods.

We recommend that all our fires are used in conjunction with central heating and not as a primary source of heat. In the interests of personal safety a suitable fireguard is recommended when children, the elderly and the infirm are present.

We accept no liability for any loss or damage arising directly or indirectly from the use of this brochure. This brochure is copyright protected and must not be reproduced in whole or in any part without prior written permission.
